

SEMAGLUTIDE/TIRZEPITIDE CONSENT

DISCLAIMER: We are prescribing the generic compound semaglutide or tirzepitide (SG/TZ) not the brand names Wegovy/Ozempic or Mounjaro/Zepbound. SG/TZ is an injectable prescription medicine used for adults with obesity (B.M.I. > 30) or overweight (B.M.I. > 27), who also have weight related medical problems, to help them lose weight and keep the weight off.

- SG/TZ should be used with a low carbohydrate meal plan and increased activity.
- SG/TZ should not be used with other SG/TZ containing products or GLP-1 receptor agonist medications.
- It is unknown if SG/TZ is safe and effective when used with other weight loss products.
- It is unknown if SG/TZ can be used safely in people with pancreatitis.

Side Effects: SG/TZ may cause serious side effects, including but not limited to:

Thyroid Tumors/Cancer

SG/TZ is contraindicated in those with a personal or family history of thyroid cancer/tumor or MEN.

Inflammation of the pancreas or gallbladder, increased risk of low blood sugar, kidney failure/problems, serious allergic reactions, change in vision, increased heart rate, hair loss, and gastroparesis (stomach paralysis), or thoughts of suicide.

Most common side effects include nausea, vomiting, diarrhea, constipation, stomach pain, headache, fatigue, upset stomach, dizziness, bloating, belching, gas, stomach flu, and heartburn.

Before using SG/TZ notify Dr. Scheiner if you have any other medical conditions including: Problems with your kidneys, depression, thoughts of suicide, mental issues, are pregnant or planning to become pregnant, are breastfeeding or plan on breastfeeding, or a personal or family history of thyroid cancer/tumor or MEN.
